

## TO WHOM IT MAY CONCERN

This is to certify that Dr. Anuradha Bandopadhyay is working with Sudharma Krishi Consultants since 2012 till date. Following her passion to learn new things for gaining experience on different agricultural practices from the senior experts of the company observing their practical works, she joined the company to work voluntarily in the year 2012 against No Payment Basis. Besides learning new things of the vast agricultural sector, she did research works on different projects under her domain. Now she is looking after the said research works as a Head, Project research, voluntarily & no payment basis by the side of her professional work in other institution.

She has gained a good expertise in the field of sustainable agriculture in the meantime through her dedication. She has conducted outreach programs including training to farmers on eco-friendly approaches for managing crop diseases, use of bio-fertilizers and bio-pesticides, eco friendly low cost farming practices through lectures and practical demonstrations in several agricultural programs. Her ability to communicate complex concepts effectively has empowered farmers to adopt sustainable practices. She has a strong track record in different types of back-end research and project formulation. We commend her commitment to advancing environment friendly and cost-effective agricultural practices. We wish her continued success in her endeavours.
