

## **Students' Week Celebration, 2023 by Barasat Government College**

### **Day 2, 03/01/2023**

In the first session Smt. Debasree Datta Assistant Professor in Philosophy, Barasat Government College has delivered a lecture on "Different types of Government Scholarships for Students in Colleges and Universities: Nature, Eligibility, Criteria and Benefits". This lecture was beneficial for all the students since every detail of scholarships provided to the students at the national and state level has been lucidly discussed as well as the Students' Credit Card related information was also disseminated followed by an intriguing question and answer session.

In the second session Dr. Shobhan Mandal, Assistant Professor in Mathematics, Barasat Government College delivered a lecture on "Career Opportunities in Basic Sciences (Physics, Chemistry, and Mathematics)". This deliberation was highly interesting as well as informative regarding different prospects of basic pure science (Physics, Chemistry and Mathematics) that were discussed as a career option.
