

A Report on visit to Naba Diganta Sewage Treatment Plant

Post Graduate Semester III students (Special paper: Ecology and environmental biology:06) of Zoology visited Naba Diganta Sewage Treatment Plant, Salt Lake Sector - V, Kolkata-700091 on 20.12.2024 along with the teacher Smt. Indrani Banerjee. Our main purpose for this visit was to provide post graduate students with practical exposure to the operations of a water treatment plant, enabling them to connect theoretical knowledge with real applications. The tour also aimed to foster interaction between students and experienced professionals in the field of water treatment. By this visit students can be familiar with industrial environment and get knowledge of different units of waste water treatment plant. We extend our heartfelt gratitude to the management and staff of NDWML for their hospitality and for sharing valuable insights with our students. The visit was an enlightening experience for our PG students. It not only reinforced their theoretical knowledge but also inspired them to innovations in water treatment and sustainable resource management.
