P.G.DEPARTMENT OF BOTANY**

Brief Report

Dr. Tripathi initiated the seminar by introducing the basics of pharmacology, emphasizing the pivotal role of botanical sources in drug discovery. He then delved into medication management, stressing adherence to prescription guidelines and the risks of non-compliance through case studies. Safety concerns were addressed, focusing on potential side effects and the importance of vigilant monitoring. Herbal remedies were discussed, highlighting the need for evidence-based practice and caution against indiscriminate use.

BGC/P.G.DEPARTMENT OF BOTANY/SEMINAR/WORKSHOP

Dr. Tripathi concluded by urging students to pursue research and innovation in pharmacology for the development of safer medicines.

Overall, the seminar provided Botany students with essential knowledge for responsible medication use.
