

DEPARTMENT OF GEOGRAPHY

Programme outcome- 2020-2021

The Department of Geography & Economics in collaboration with IQAC organized a national webinar entitled “**Livelihood Challenges in India**” on **11th July 2020**. The goal of the webinar was to provide a platform to discuss the major difficulties faced by the Indian economy and spatial variation of livelihood challenges from different perspectives.

Valuable lectures of two eminent speakers, gracious presence of 337 distinguished guests and the qualitative interactions among participants made this programme a great success.

To celebrate 47th World Environment Day, the Department of Geography in collaboration with IQAC and Regional Science Association, India organized an international webinar entitled "**Contemporary Environmental Scenario: A Geospatial Appraisal**" on **5th June 2021**. This webinar aimed to create a platform to discuss the major concerns of the environment from different perspectives.

A total of 852 national and international guests registered for this webinar. Two eminent speakers delivered their valuable lectures. The technical sessions were followed by qualitative interactions among the participants. More than eighty percent of participants expressed great satisfaction regarding this program and all these factors made this program vibrant and successful.
